CDM learning & skills development

COP17/CMP7
UN CC:Learn Workshop, Durban, South Africa, 4 Dec 2011
Purpose of CDM Skills Development

Operationalize learning and skills development to increase capacity in the CDM process under the UNFCCC.
Rationale for CDM learning – an example

- ASP (81.98%)
- Other (0.39%)
- AFR (2.01%)
- LAC (15.62%)
Target groups?

1) Designated National Authorities (DNA)
2) Designated Operational Entities (DOE)
3) Panels, Experts, Partners, Assessors…
4) Project Participants
5) UNFCCC Staff
What does that mean?

1) Implement a Learning Management System (LMS)
2) Increase use of e-Learning / distance learning on CDM
3) Create opportunities for peer-to-peer learning
   (communities of practice)
4) Search for synergies with partners
5) ... and continue delivering on-site trainings / workshops
Welcome, Duan, to the UNFCCC Learning Platform.
Learning and skills development scenarios

1. Learner enrolls for a workshop
2. Learner completes e-Learning course
3. Learners collaborate globally on CDM topics
4. Expert delivers CDM module via web cast
5. Learner discusses course with other learners

Overview Learning Management System

What does a LMS provide?

• System to deliver and manage learning activities
• Online portal accessible anywhere, anytime
• Collaboration platform
• Unique space to access learning activities and resources
• Reporting tool for training programmes
Expected benefits

- Streamlined CDM skills and capacity development
- Faster, more effective briefing/training
- Usage of modern, more effective learning tools
- Personalized, continuous access to courses and resources
- Comprehensive reporting on results
- Reduced costs due to less administrative overhead
Next steps

• LMS go-live for stakeholders and staff (from Mar 2012)
• Launch of CDM e-Learning modules
• Skills assessment among staff and stakeholders
• Access to learning resources
• Develop [online] communities of practice among stakeholders

• … and continue regular workshops and trainings
